

**FHTE> Phone> Home:
Your Seller's Search for a Notary is OVER!**

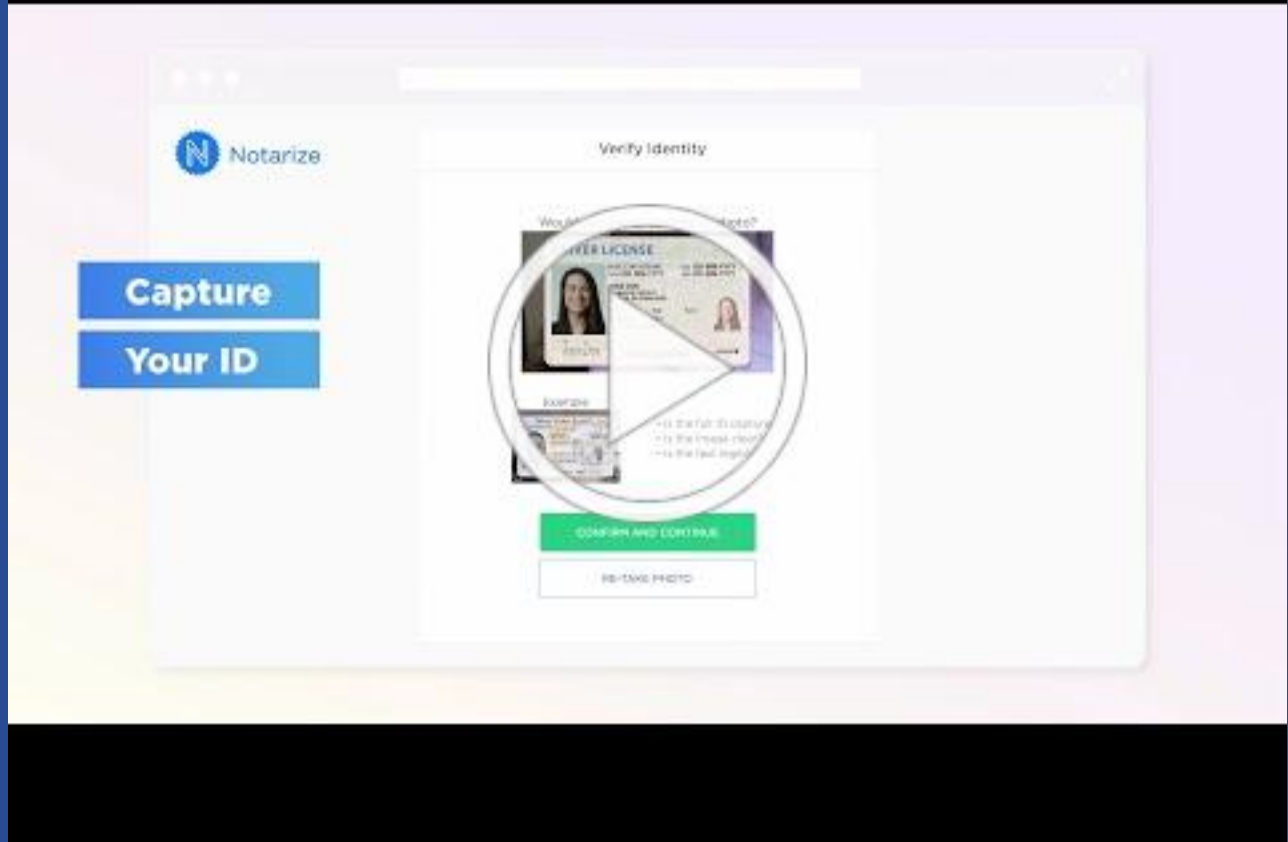

The closing process just got incredibly simple. If you're closing with [FHTE](#), and you've got a phone, we can transfer the home. How?

Remote Online Notarization.

On Monday, March 4, 2019, the seller of a Lee County home became one of the first Florida grantors to execute his notarized side of the transaction completely from a mobile device! The electronic signing process was executed through a remote online notarization platform provided through underwriter Westcor and Notarize.com. From the contract to the recorded deed, Florida Hometown Title & Escrow coordinated the execution of the documents paperless and securely with the help of Marc St. Martin of United Real Estate Infinity in Fort Myers.

Any computer, tablet, or mobile electronic device with internet connectivity, video and audio capability can be used for the simple process of verifying a seller's identity on screen with an online notary and then signing a deed electronically. Just think- a seller can now transfer title on a tablet from the comfort of their couch!
